TPA Poland expands the range of services offered to include legal services

For nearly 15 years, TPA Poland has been offering comprehensive tax, transaction and corporate finance consulting services, financial auditing, accounting outsourcing and payroll administration as well as personal consulting services. Effective immediately, as a result of a merger with W/AIRP Law Firm headed by Katarzyna Woroszyńska, TPA Poland will offer legal services to their clients.

TPA Poland has a strong reputation among consulting companies, especially in the real estate and construction sector, as well as the energy industry. Since 2017, TPA has been an independent member and exclusive Polish representative of Baker Tilly International, a global accounting and consulting network. Our multi-discipline consultancy services will now be naturally complemented as we officially enter into the great cooperation with the renowned W/AIRP attorneys' team and legal counsels through the merger of both companies.

Our know-how, experience and a conversance of our key sectors of economy, such as real estate, as well as professional customer service in three languages, including German, are unique assets characterizing the team managed by Katarzyna Woroszyńska. As a result of the merger between TPA Poland and W/AIRP Law Firm, we will provide legal services under the Baker Tilly Woroszyńska Legal brand. This is the first formal stage of rebranding TPA Poland into the global Baker Tilly International brand, which will cover in the future all the services we offer - announced Wojciech Sztuba, managing partner of TPA Poland.

The W/AIRP Law Firm has been active in the legal services market since 2015. The dynamically developing team specializes in providing services to the Polish and foreign in the area of real estate, corporate finance, disputes, restructuring and labour law. Our philosophy focuses on our Clients, building strong and lasting relationships, as well as adding tangible value to the activity pursued by our Clients. These values are compatible with the TPA Poland strategy, and the possibility to offer integrated services in the "one stop shop" formula that enables us to increase the comfort of our Clients and effectiveness of our activities.
