TPA Poland wins the European final round of the HOF Awards in the Tax & Financial Team of the Year category

On April 5, 2018 in Prague, Czech Republic, the third edition of the European final round of the Hall of Fame (HOF) Awards 2018 was held. Winners of the local editions of the CIJ Awards from 6 countries competed for the awards. TPA Poland was awarded the title of Tax & Financial Team of the Year.

We are extremely honored to be recognized among this group of international experts. Even more so because we competed against such highly regarded consulting firms. We would not be here today if it were not for our demanding clients, proactive team members, and a corporate culture that attracts valuable talent by fostering rapid and flexible development. Receiving this award in Prague is particularly significant, as we had the pleasure to cooperate with many investors from the Czech and Slovak market in 2017. At this point, we would also like to thank our Czech colleagues from the Prague office who cultivate TPA's good reputation through their daily work and high quality of services.

- commented Małgorzata Dankowska, tax advisor and Partner responsible for real estate team and the Warsaw tax office at TPA Poland

The 2018 HOF Awards is a prestigious event, third in a row, organized by the monthly magazine *CIJ Europe*. It is the second round of the CIJ Awards, a competition during which an independent jury selects winning companies that stand out on the European forum, from real estate developers to service providers. Winners of the local editions from 6 countries, namely Poland, Czech Republic, Hungary, Romania, Serbia and Slovakia, compete for the top prize, Best of the Best HOF Awards.

The jury included eminent CEOs of real estate companies, directors, associations and readers of *CIJ Europe*. The event was attended by about 300 specialists in the real estate market from 17 countries of Central Eastern and South Eastern Europe.

We are pleased that the TPA strategy, based on regional cooperation and integration, has been so deliciously fruitful. We must continue to keep pace with the changing market, adapt to the growing needs of our customers, developing new products with them (e.g. the Polish Private Rental Sector), and do everything in our power to recruit brilliant consultants in this demanding employee market.

- adds Małgorzata Dankowska
